Dear Friend,

You are invited to be part of something very special, BooFest 2018 and Touch a Truck section. How many children do you know who would enjoy climbing on a Fire Truck, Ambulance, Bulldozer, Limousine, etc.! Touch a Truck is being added to Boofeset this year. We know if we can provide a unique opportunity for special needs children to explore vehicles of all types, including public service, emergency, utility, construction, transportation, delivery and just plain cool and all in one place. Seeing a child's face light up when they see or sit inside one of these vehicles can be priceless esp. when we allow those with special needs to be part of our events.

Those who attend will be allowed to touch, climb on and ask questions about their favorite trucks in a safe, supervised environment. Your accompanying personnel can teach the children about the equipment displayed and how these machines work in our community.

Attached is a vendor (vehicle registration form). We hope you will consider being part of this exciting event that is taking place in our community and has become the valley's largest nonprofit Halloween theme safe event for those with special needs and our public to attend
